THE

Mineralogical Magazine

AND

JOURNAL

OF THE

MINERALOGICAL SOCIETY

(Instituted February 3, 1876)

Edited by L. J. SPENCER, C.B.E., F.R.S.

VOLUME XXX

(Nos. 220–231, 1953–55)

LONDON

GEOFFREY CUMBERLEGE, OXFORD UNIVERSITY PRESS

Amen House, Warwick Square, E.C. 4

1955

TABLE OF CONTENTS

[No. 220, MARCH, 1953] PAGE

Bye-laws; List of Members ix

A. F. Seager: The surface structure of crystals (Plates I–IX) . . . 1

J. E. S. Bradley and O. Bradley: Observations on the colouring of pink and green zoned tourmaline 26

C. E. Tilley and N. F. M. Henry: Latiumite (sulphatic potassium-calcium-aluminium silicate), a new mineral from Albano, Latium, Italy (Plates X and XI) 39

F. A. Bannister, T. G. Sahama, and H. B. Wiik: Kalsilite in venanzite from San Venanzo, Umbria, Italy 46

A. F. Hallimond and E. W. Taylor: An improved polarizing microscope. V. The ore-microscope 49

G. W. Brindley and R. F. Youell: Ferrous chamosite and ferric chamosite 57

G. W. Brindley: An X-ray method for studying orientation of micaceous minerals in shales, clays, and similar materials 71

K. M. Moody: The space-group and cell-dimensions of rankinite . . 79

A. L. Mackay and H. F. W. Taylor: Gyrolite (Plate XII) . . . 80

[No. 221, JUNE, 1953]

Proceedings of the Mineralogical Society for 1952 xxxvii

S. H. U. Bowie and J. E. T. Horne: Cheralite, a new mineral of the monazite group 93

B. Mason and C. J. Vitaliano: The mineralogy of the antimony oxides and antimonates 100

D. S. Coombs: The pumpellyite mineral series 113

C. D. Waterston: An occurrence of harmotome in north-west Ross-shire . 136

K. Carr, R. W. Grimshaw, and A. L. Roberts: A hydrous mica from Yorkshire fireclay 139

F. Smithson: High-order plates for the microscopic examination of mineral grains 145

F. Chayes: The relation between area and volume in micrometric analysis . 147

L. Heller: X-ray investigation of hillebrandite 150

[No. 222, SEPTEMBER, 1953]

H. F. W. Taylor: Crestmoreite and riversideite 155

A. L. Mackay: The unit cell and space-group of chlor-spodiosite (Ca_2PO_4Cl) . 166

P. Gay: The structures of the plagioclase felspars: III. An X-ray study of anorthites and bytownites 169

R. C. Mackenzie and A. A. Milne: The effect of grinding on micas. I. Muscovite 178

W. D. Johns: High-temperature phase changes in kaolinites . . . 186

R. J. Firman: On the occurrence of nacrite at Shap, Westmorland . . 199

E. R. Schmidt and H. Heystek: A saponite from Krugersdorp district, Transvaal 20

[No. 223, DECEMBER, 1953]

G. F. Claringbull and M. H. Hey: A re-examination of churchite . . 21

E. R. Segnit: Some data on synthetic aluminous and other pyroxenes . 21

O. Bradley: An investigation of high-temperature optics in some naturally occurring plagioclases 22

B. A. O. Randall: A large mineralized cavity in a tholeiite dike in Northumberland 24

E. O. Rowland: A rapid method for the preparation of thin rock-sections . 25

P. G. Embrey: Note on the occurrence of beryl and löllingite at the New Consols mine, Stoke Climsland, Cornwall 25

L. R. Wager, D. S. Weedon, and E. A. Vincent: A granophyre from Coire Uaigneich, Isle of Skye, containing quartz paramorphs after tridymite (Plate XIII) 26

[No. 224, MARCH, 1954]

M. H. Hey: A new review of the chlorites 27

J. D. C. McConnell: The hydrated calcium silicates riversideite, crestmoreite, and plombierite 29

J. Goodyear and W. J. Duffin: The identification and determination of plagioclase felspars by the X-ray powder method 30

J. G. D. Steyn: Spectrographic and X-ray data on some fluorites from the Transvaal, South Africa 32

H. C. G. Vincent: A simple monochromator 33

H. F. W. Taylor: The identity of jurupaite and xonotlite 33

[No. 225, JUNE, 1954]

Proceedings of the Mineralogical Society for 1953 li

C. Frondel: Bassetite and uranospathite 34

W. S. MacKenzie: The orthoclase-microcline inversion 35

J. M. Carr: Zoned plagioclases in layered gabbros of the Skaergaard intrusion, east Greenland 36

I. D. Muir: Crystallization of pyroxenes in an iron-rich diabase from Minnesota 37

F. H. Stewart, R. A. Chalmers, and R. Phillips: Veatchite from the Permian evaporites of Yorkshire 38

E. H. T. Whitten: Two arfvedsonitic rhyolite intrusions from Cloghaneely, Co. Donegal 39

H. Heystek: An occurrence of a regular mixed-layer clay-mineral . . 40

[No. 226, SEPTEMBER, 1954]

D. S. Coombs: Ferriferous orthoclase from Madagascar 40

P. Gay: The structures of the plagioclase felspars. V. The heat-treatment of lime-rich plagioclases 42

J. V. Smith and Th. G. Sahama: Determination of the composition of natural nephelines by an X-ray method 439

A. L. Mackay and H. F. W. Taylor: Truscottite 450

P. M. Game: Zoisite-amphibolite with corundum from Tanganyika . . 458

L. H. Ahrens: A note on the relationship between the precision of classical methods of rock analysis and the concentration of each constituent . 467

I. Stephen: An occurrence of palygorskite in the Shetland Isles (Plates XIV and XV) 471

[No. 227, DECEMBER, 1954]

M. H. Hey: A further note on the presentation of chemical analyses of minerals 481

J. Zussman: Investigation of the crystal structure of antigorite . . . 498

H. C. G. Vincent: An accessory to the polarizing microscope for the optical examination of crystals 513

G. P. Black: The significance of tridymite in igneous and metamorphic petrogenesis 518

T. W. Bloxam: Rodingite from the Girvan-Ballantrae complex, Ayrshire . 525

G. M. Brown: A suggested igneous origin for the banded granular hornfelses within the hypersthene-gabbro of Ardnamurchan, Argyllshire . . 529

L. E. Rogers, A. E. Martin, and K. Norrish: The occurrence of palygorskite near Ipswich, Queensland 534

A. K. Temple: Rammelsbergite from the southern uplands of Scotland (Plate XVI) 541

[No. 228, MARCH, 1955]

I. D. Muir: Transitional optics of some andesines and labradorites . . 545

H. D. Megaw and C. H. Kelsey: An accurate determination of the cell dimensions of bultfonteinite, $Ca_4Si_2O_{10}H_6F_2$ 569

G. W. Brindley and K. Hunter: The thermal reactions of nacrite and the formation of metakaolin, γ-alumina, and mullite 574

D. E. Henshaw: The structure of wadeite 585

G. Baker: Australites from Harrow, Victoria 596

R. Greene-Kelly: Dehydration of the montmorillonite minerals . . 604

[No. 229, JUNE, 1955]

Proceedings of the Mineralogical Society for 1954 lxiii

A. Russell: The Rev. William Gregor (1761–1817), discoverer of titanium . 617

S. I. Tomkeieff: Space lattices 625

S. A. Bilgrami: Manganese amphiboles from Chikla, Bhandara district, India 633

F. A. Bannister, M. H. Hey, and W. Campbell Smith: Grovesite, the manganese analogue of berthierine 645

J. Goodyear and W. J. Duffin: The determination of composition and thermal history of plagioclase by the X-ray powder method . . 648

G. Brown: The effect of isomorphous substitutions on the intensities of (00l) reflections of mica- and chlorite-type structures 657

H. C. G. VINCENT: Projector for interference figures and for direct determination of 2V 666

J. D. C. MCCONNELL: The hydration of larnite (β-Ca_2SiO_4) and bredigite (α_1-Ca_2SiO_4) and the properties of the resulting gelatinous mineral plombierite (Plate XVII). 672

[No. 230, SEPTEMBER, 1955]

T. DEANS and J. D. C. MCCONNELL: Isokite, $CaMgPO_4F$, a new mineral from Northern Rhodesia (Plate XVIII) 681

A. STEINER: Wairakite, the calcium analogue of analcime, a new zeolite mineral 691

D. S. COOMBS: X-ray observations on wairakite and non-cubic analcime . 699

G. H. FRANCIS: Gedrite from Glen Urquhart, Inverness-shire . . . 709

G. D. NICHOLLS and J. ZUSSMAN: The structural formula of a hydrous amphibole 717

A. W. G. KINGSBURY and J. HARTLEY: On the occurrence of the rare copper mineral, lindgrenite, at Brandy Gill, Carrock Fell, Cumberland . . 723

L. J. SPENCER: Twentieth list of new mineral names 727

[No. 231, DECEMBER, 1955]

Title-page and Contents, Errata and Addenda

Index 751

EXPLANATION OF PLATES

FACING PAGE

Plates I–IX. Surface structure of crystals (A. F. Seager) . . . 24

,, X–XI. Latiumite, Latium, Italy (C. E. Tilley and N. F. M. Henry) 44

,, XII. X-ray photographs of gyrolite (A. L. Mackay and H. F. W. Taylor) 90

,, XIII. Tridymite in granophyre and arkose (L. R. Wager, D. S. Weedon, and E. A. Vincent) 276

,, XIV–XV. Electron micrographs of palygorskite (I. Stephen) . . 480

,, XVI. Photomicrographs of rammelsbergite, Wanlockhead, Scotland (A. K. Temple). 543

,, XVII. Photomicrographs of larnite-rock and hydration products (J. D. C. McConnell). 680

,, XVIII. Photomicrographs of isokite and monazite-bearing carbonatite from Northern Rhodesia (T. Deans and J. D. C. McConnell). Fig. 1, $\times 60$; Fig. 2, $\times 350$ . . . 690

ERRATA AND ADDENDA
